Range : Starting From 100 LPD to 1,00,000 LPD @ 60° to 80°
 Inner Tank-SS 304 Prime Grade Steel
 Outer Tank Powder Coated With SS 304
 High Quality Tested Borosilicate Tube Collector
 58 mm Outer Dia, 47 mm Inner Dia, 1800 mm Length
 Compressed Puf Insulation to Retain Hot Water for 24 Hours
 Supporting Stands are GI with Powder Coated
 All Fastners are non-magnetic and rust free
 Better Performance in Hard Water & Salt Water Usage
 1.5 kw Back-Up Heater with Thermostat (Optional)
 Average Life Time 15 years

Range : Starting From 100 LPD to 1,00,000 LPD @ 60° to 80°
 Inner Tank-SS 304 Prime Grade Steel, Also with SS 316 On Customer Demand
 Outer Tank SS 403 Mirror Finish
 Solar Flat Plate Collector-
 Copper-Copper Selective Coating With Tig Welding of Area 2 sq.m
 Compressed Puf / Rockwool Insulation to Retain Hot Water More than 24 Hours
 Supporting Stands are MS with Powder Coated
 All Fastners are non-magnetic and rust free
 2 kw Back-Up Heater with Thermostat (Optional)
 Maximum Heat Absorption and Heat Retention
 Average Life Time 30 years

We are accredited with ISO 9001 certification for our Quality Management System and our products are recognized and certified by Bureau of Indian Standards (BIS). Further We are registered with MNRE, DGS&D and CRISIL which enables us to supply our products to State & Central Government Departments for past several years. We have installed more than 4, 00,000 Liters of Industrial systems and 8,000 domestic systems over Karnataka and the same have been working satisfactorily. We expand our network all over Kerala to provide solar appliances useful in our day to day life, thus preserving natural resources to some extent and claim as a partner in conserving Nature. In our two decades of journey we have satisfied customers from large Educational Institutions, Research & Development Centers including Commercial & Residential establishments.
